

### Mobility + Video = Movi

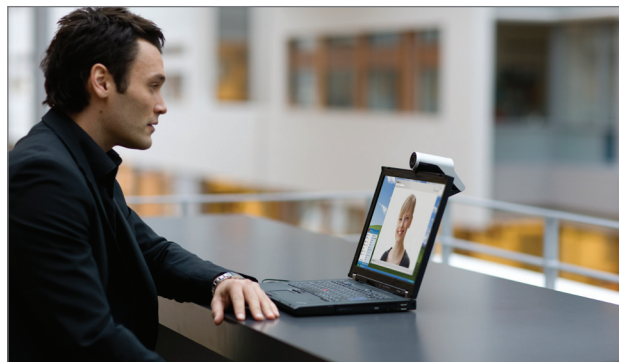

Movi — because you can't always be in the office.

### YOUR OFFICE JUST GOT BIGGER

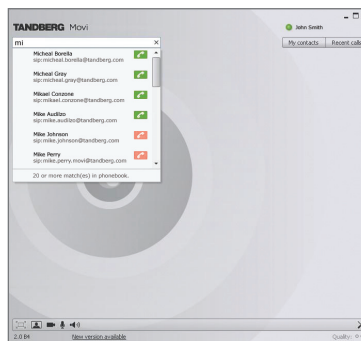

Video has transformed the way people communicate and conduct business. The ability to interpret facial expressions, body language and voice intonation allows organizations to accelerate decision making, scale expertise and create more cohesive team environments. Traditionally, video conferencing has required that you be in a specific location to participate in the meeting. Those days are over.

TANDBERG Movi is a next generation video collaboration tool that turns any PC into a mobile, high-definition video conferencing system. Imagine taking a business meeting from a cafe, an airport gate or even a park bench. And, because it's high-definition video combined with enhanced audio, nobody will know that you've broken free from your office. This is the power of Movi.

### MOBILE. FLEXIBLE. SIMPLE.

Movi makes any PC a business-quality video system — all that is required is an Internet connection, camera, microphone and speakers. Paired with the TANDBERG PrecisionHD™ USB camera, Movi enables high definition 720p 30fps video. Its intuitive user interface makes scheduling and connecting to a conference as simple as a single mouse click. The presence feature indicates the real-time status of other Movi users, so you always know who is available.

Connecting with Movi is as simple as clicking a name in a drop down menu on the intuitive Movi interface.

# TANDBERG SOLUTIONS

## Mobility + Video = Movi

## INTUITIVE. SCALABLE. INTEROPERABLE.

Movi is standards compliant, translating into maximum interoperability with H.323 and SIP endpoints. Easily connect with other Movi users, personal desktop video, executive systems, conference rooms — even Telepresence. Movi is the next extension of your integrated video network. Best of all, Movi is not limited to single point-to-point connections like other PC-based solutions. It allows you to simultaneously connect with multiple users on different devices, providing you the flexibility you need when you are working remotely.

## MASS DEPLOYMENT MADE EASY

Movi is registered with TANDBERG's Video Communications Server (VCS) making getting and staying connected extremely easy. Provisioning new Movi users is simply a matter of importing data from the Microsoft Active Directory into the TANDBERG Management Suite (TMS). With Movi's authentication and encryption capabilities you can be confident that your video communications are as secure, reliable and seamless out of the office as they are in the office. And because the network is centrally managed, updating new Movi releases is a highly efficient process.

## TRANSFORM THE WAY YOU DO BUSINESS

Movi is more than an intuitive user interface, interoperability and mobility. It's about what it enables you to do. Critical decisions can be made in a fraction of the time, workers can connect from remote locations and processes can be significantly more efficient. All of this, while reducing expenses. Movi is making the world your office.
