## Voice Conferencing Services

V-Connect Voice Conferencing Service from VSGi helps facilitate your business. In today's competitive economy, time is of the essence. VSGi Voice Conferencing Service offers a powerful alternative to your current conferencing solution.

Whether you need a meeting in 5 minutes, or are planning an earnings call for 100+, we have the tools to get your meeting off the ground. V-Connect Voice Conferencing provides on-demand and operator assisted conferencing for whatever your conferencing requirements are. Isn't it time meetings worked the way you intended? With VSGi they can.

### VSGi's Voice Conferencing Services include:

**Operator Assisted Calls** offers the assurance that a dedicated, experienced conferencing professional will manage your calls when your meeting requires a higher level of planning and support

**Domestic and International** conference service.

**Dial-in/Dial-out** capability.

**Fax/email broadcast service** to disseminate relevant information to all conference participants.

**Password protection** for meetings that require a high level of security.

**Lecture mode** keeps participant lines muted during the call to ensure no disruptions.

**Roll call** option provides a quick operator assisted roll call prior to the meeting to ensure expected participants are online.

**Polling** boosts participation during the call. Ask pre-determined questions during your meetings and gather the results before the call is completed.

**Keypad commands** allow you to contact an operator; mute/unmute single/all lines or lock the conference.

**Leader View** provides private, on-line real-time data about participants on a conference Q&A session.

**Encore services** offer digital call recording for future playback of conference. We offer multiple Encore packages based on your needs, so let us know what you would like recorded, and we most likely have a solution.

**V-Connect Operator Assisted Calls** may be set up with enhanced features and services to provide a flexible conferencing solution. With the widest array of options, we give you audio conferencing your way.
