

# Meeting Visuals, powered by WebEx™

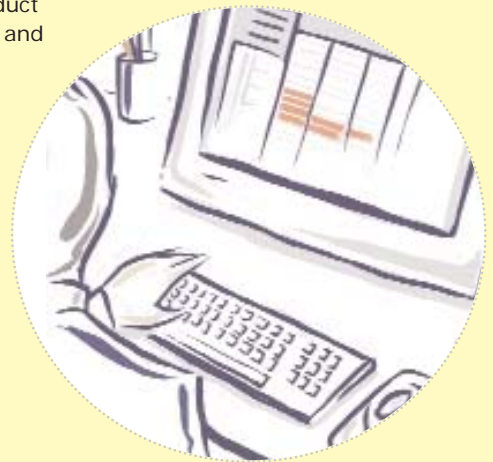

*The perfect tool for everyday business*

In today's fast paced business environment, making decisions quickly and efficiently is critical to maintaining a competitive advantage. Time wasted scheduling in-person meetings, making travel arrangements, and bringing together a globally dispersed team can mean lost revenue and increased operating costs. Every minute counts.

With Meeting Visuals, powered by WebEx™ webconferencing, you can increase effectiveness and productivity - across your entire company-and make faster, more accurate business decisions every day. Collaborate with employees, present to customers, and meet with business partners anytime, anywhere. Meeting Visuals integrates data, voice and video content within a standard web browser, so you can conduct real-time meetings over the Internet simply and quickly.

## INCREASE OPERATIONAL EFFECTIVENESS AND PRODUCTIVITY ACROSS THE ENTERPRISE

- ▶ **MAKE FASTER, BETTER-INFORMED BUSINESS DECISIONS.** With the ability to conduct secure, reliable online meetings, on demand, you can make critical decisions instantly and interactively eliminating wasted time traveling between offices.
- ▶ **INCREASE ORGANIZATIONAL EFFECTIVENESS.** Meeting Visuals makes it simple to confer with other employees on quarterly sales goals, global marketing initiatives, or product development plans, regardless of location or computing platform.
- ▶ **ENHANCE RELATIONSHIPS WITH BUSINESS PARTNERS AND CUSTOMERS.** With Meeting Visuals you can easily include business partners in critical joint-marketing or development discussions, and keep customers informed about upcoming product enhancements and announcements.
- ▶ **REDUCE TRAVEL AND OPERATIONAL EXPENSES.** Meeting Visuals lets you increase collaboration among employees, customers, and business partners while eliminating unnecessary travel expenses and reducing operating expenses.
- ▶ **KEEP CONFIDENTIAL INFORMATION SAFE AND SECURE.** With support for industry-standard SSL encryption, you can conduct even the most sensitive meetings with confidence- without compromising corporate security or the shared data.
- ▶ **RECORD MEETINGS AND APPLICATIONS FOR FUTURE REFERENCE.** With Meeting Visuals, you can record meetings and capture any application. Share your meeting or training session with other colleagues, edit and archive it for future use, or reply it at a later time for demonstration purposes.

## WHY VSGI CONFERENCING SERVICES

- ▶ Complementary services that work in conjunction with our webconferencing solutions: V-Connect Audio Conferencing Service, Visual IP and Visual DialTone Network Solutions, Polycom and TANDBERG videoconferencing hardware, and much more.
- ▶ End-to-end solution, single point of contact for all conferencing initiatives: voice, video, web & networking solutions.
- ▶ Proven track record supporting and implementing effective conferencing solutions for over 14 years.

## RELY ON MEETING VISUALS

- ▶ **SALES.** Meet with key customers faster and more often.
- ▶ **MARKETING.** Conduct research and receive immediate feedback.
- ▶ **TRAINING.** Create a library of training sessions for replay anytime.
- ▶ **ENGINEERING.** Collaborate on product plans and designs.
- ▶ **HUMAN RESOURCES.** Host new employees orientation seminar.

## MEETING VISUALS FEATURES

**Document Sharing** View multiple PowerPoint presentations, documents or graphics without uploading the files to a server. Our unique vector format allows for high-resolution, multi-level zooming, and annotation capabilities.

**Support for Animation and Transitions** Share multiple PowerPoint presentations in a single meeting, with support for animation and slide transitions.

**Multimedia Content Sharing** Play back multimedia objects, including Flash and streaming video and audio, within PowerPoint presentations. Incorporate streaming multimedia from any website into your meeting.

**Application Viewing** Show any business-critical desktop application, without uploading files to a server. Present any application remotely, enhancing the effectiveness of live demos and team meetings.

**Application Sharing** Share anything on your desktop with an audience member to instantly solve customer support issues, conduct more effective live demos, and streamline project meetings.

**File Transfer** Presenters can easily pass documents to participants for download during a meeting.

**Polling** Allows presenter to solicit feedback from attendees via online survey responses.

**Video Integration** Incorporate real-time videoconferencing into your meeting using any desktop video camera. Stream video from a VCR, DVD player or camcorder into your meeting.

**Record, Edit and Playback Meetings** Record an entire meeting or any desktop application for later reference, training purpose, or demos. Even edit the recorded session in preparation for playback.

**Security** Support for SSL encryption enables you to securely conduct interactive meetings with even the most confidential information.

## SYSTEM REQUIREMENTS

### For Windows 98, 98, NT, 2000 and XP

Processor Pentium 166MHz/Pentium  
 Memory 32MB RAM  
 Display 1024x768 XGA resolution w/ True color or better  
 Network Card 10/100Mbps Fast Ethernet  
 56k Internet Connection (Min.)  
 Browser Microsoft Internet Explorer 4.x, 5.x or 6.x or Netscape Communicator 4.x  
 JavaScript and cookies enabled

### Mac OS 9.x or later

Processor Power PVC Macintosh G3  
 Memory 64MB RAM  
 Virtual Memory On  
 Display 1024x768 XGA resolution w/ True color or better  
 Network Card 10/100Mbps Fast Ethernet  
 56k Internet Connection (Min.)  
 Browser Microsoft Internet Explorer 5  
 JavaScript and cookies enabled  
 Quick Time Installed

### Solaris 5.7 or 5.8 or Solaris 9

Processor UltraSPARC or SPARC  
 Memory 128MB RAM  
 Display 16-bit or better video display  
 Network Card 10/100Mbps Fast Ethernet  
 56k Internet Connection (Min.)  
 Browser Netscape Communicator 4.5x, 4.6x or 4.7x  
 JavaScript and cookies enabled

### Linux Red Hat Linux 6.x/7.x

Processor Intel x86 or compatible  
 Memory 128MB RAM  
 Virtual Memory On  
 Display 16-bit or better video display  
 Network Card 10/100Mbps Fast Ethernet  
 56k Internet Connection (Min.)  
 Browser Netscape Communicator 4.7x  
 JavaScript and cookies enabled

### Palm V or Palm VII

With a wireless modem and data service/airtime
