The Polycom HDX and VSX Practitioner Carts offer real-time, interactive voice and video communication utilizing Polycom HDX and VSX systems.

The Cart's small footprint is designed around a durable, easy-to-clean cart frame that provides the ultimate in maneuverability and flexibility.

A counter-weighted base provides stability for all types of flooring surfaces and the four large, rubber ball-bearing swivel casters enable it to be moved and positioned effortlessly.

For added flexibility, the cart's height adjusts from 70.5" (179 cm) to 50.8" (129 cm) to accommodate multiple users. A single 23-inch LCD display ships with the HDX version, while the VSX version comes with a 19-inch LCD display.

The 55 Ah battery power system provides support for up to five hours on a single charge, so you can concentrate on helping your patients without having to worry about locating a power source. The conveniently placed, remote user interface lets you know battery capacity at a quick glance. Three integrated hospital grade outlets provide ample power for supporting a multitude of customer supplied accessories.
